### Understanding Forums

- **FORUM** - Represents the **top level** of the discussion hierarchy (e.g. Week One, Unit One, etc.) and can be thought of as the room you might reserve to hold a discussion.
- **TOPIC** - Represents the **mid-level** in the discussion hierarchy (e.g. Chapter One Questions) and be thought of as the questions you would write on the board for the group to discuss.
- **CONVERSATION** - Represents the **lower-level** of the discussion hierarchy (e.g. Answers to Chapter One Questions) and would represent the conversations that take place around each topic.
